RE: Central Maine Power Company, MPRP Project Update

Dear Mr. Gilpatrick:

Please find enclosed updated copies of the strip maps which were included in the MPRP application submitted to you last February. The maps reflect minor changes to the project area as follows:

- The maps utilize a more current version of the orthophotography
- Structure height labels along Cobbossee Stream (Map 2) have been corrected
- The "jog" originally proposed between Hallowell-Litchfield Road and Town House Road (Map 3) has been straightened. Several structures have been realigned in this area as a result of the straightening

The above changes do not impact areas where shoreland zoning approval was required. Should you have any questions; however, don't hesitate to contact me at 620-3842 or at jtitus@trcsolutions.com.

Sincerely,

John Titus
