Subject: Appeal No. 2527 - West Scarborough Transmission Line

By vote of the Scarborough Zoning Board of Appeals on March 10, 2010, your appeal to construct a new transmission line in the center of the existing right of way has been granted.

As you know, the next step in the process is site plan review with the Planning Board.

According to the Scarborough Zoning Ordinance, Section IV. K. and Section V., your rights granted by this appeal shall expire if the construction or commencement of the use is not begun within six months of the date on which the approval was issued.

Very truly yours,

Mark Maroon, Chairman
Zoning Board of Appeals
